

SIMULATIONiQ™ Portable

SIMULATIONiQ™ Portable is a powerful capture and debrief solution that enables high-fidelity data collection and performance evaluation for on-the-go training environments or anywhere space and portability are important. Equipped with a touch-enabled laptop/tablet and two wireless HD (1080p) PTZ cameras on wheels, it can be used as a standalone unit or integrated with EMS' **SIMULATIONiQ Enterprise** or **SIMULATIONiQ Enterprise Cloud** solutions.

SIMULATIONiQ PORTABLE ENABLES

- Flexible, on-the-go audio and video capture for in situ training environments
- Immediate debriefing after recording
- Touch-enabled bookmarking and annotation on live recording or during playback
- Integration with supported mannequins
- Integration with SIMULATIONiQ Enterprise or SIMULATIONiQ Enterprise Cloud solution
- Video and data export to an external hard drive or USB drive
- Up to 100 hours of video storage (250GB)
- **Multi-room viewing with SimBROWSER™, a secure, permission-based web application to view your live and recorded videos from a computer, tablet or hand held device connected to your institution's network.**

SIMULATIONiQ PORTABLE STANDARD OUT-OF-THE-BOX COMPONENTS

- One touch-enabled Windows laptop/tablet
- Two wireless HD (1080p) PTZ cameras
- Two camera stands on wheels
- Two multidirectional microphones
