

SIMULATIONiQ™ One Room Simulation Solution

Education Management Solutions' SIMULATIONiQ™ One Room provides an all-in-one simulation management solution for single-room environments. SIMULATIONiQ™ One Room equips organizations with an economical solution that has the power of a larger-scale enterprise, with the flexibility to support your training's evolving needs.

A comprehensive and scalable AV capture and debriefing solution designed for clinical simulation management offering high-definition audio and video recording, bookmarking, and annotation features to enhance training and streamline debriefing.

SIMULATIONiQ™ ONE ROOM FEATURES

Enhanced Simulation for Optimal Results

- High-Definition audio/video capture and advanced video management capabilities
- Manikin Voice and paging announcement hardware package (optional)
- Up to 300 hours of audio and video storage (expandable with cloud option)

Responsive Support

- TotalCAREiQ™ support package available

Real Time Instructional Tools

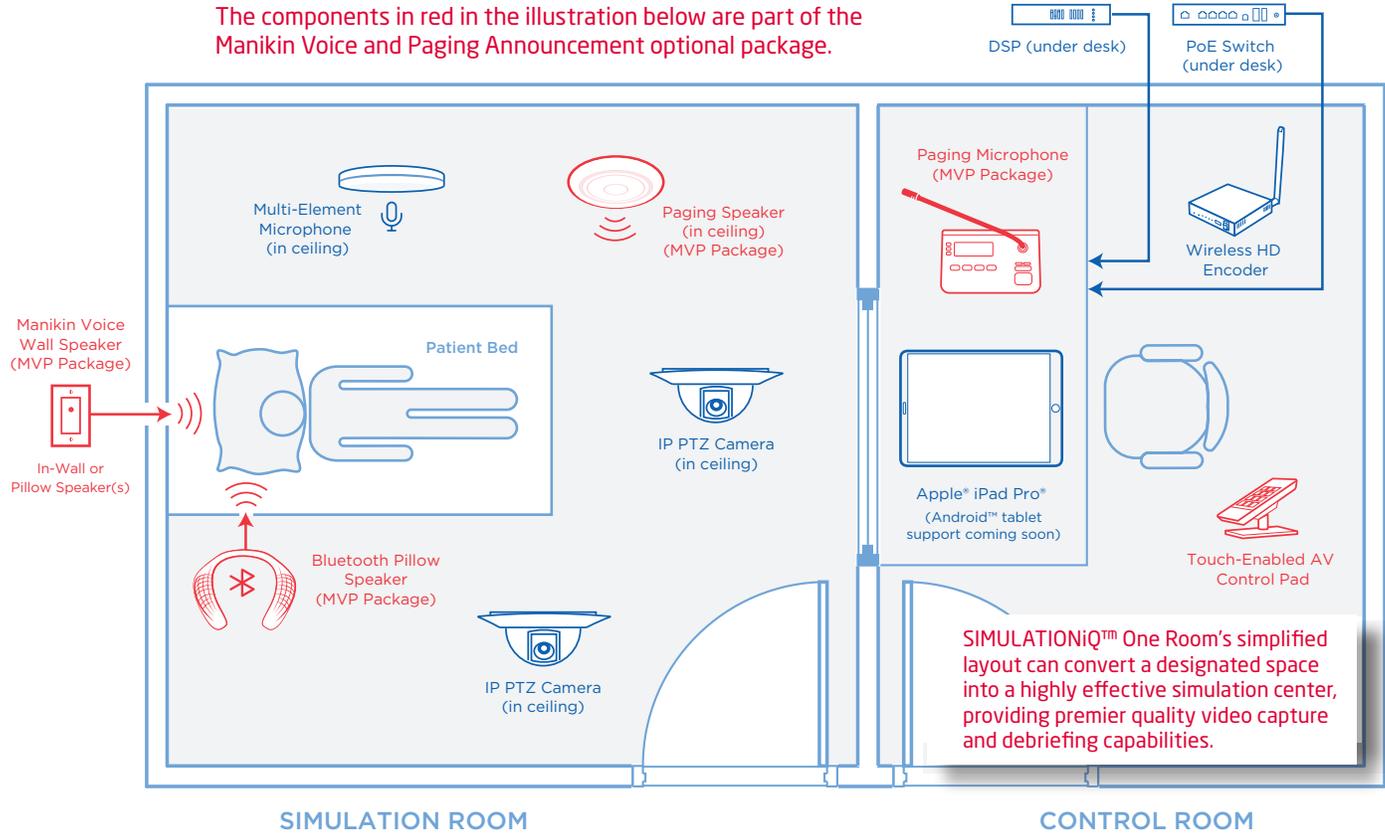

- Post session immediate debriefing capabilities
- Bookmarking and annotation during live recording or playbacks

Integration and Scalability

- Integrates with leading manikin manufacturers
- Supports EMS' Training in Motion®, SIMULATIONiQ™ Enterprise, CORE, and Competency.AI™ solutions
- Easily scalable with additional SIMULATIONiQ™ One Room units

SIMULATIONiQ™
One Room
A powerful and scalable simulation solution ideal for single room environments in any set up.

The components in red in the illustration below are part of the Manikin Voice and Paging Announcement optional package.

THE SIMULATIONiQ™ ONE ROOM SOLUTION

Cost Efficiency

Empowering healthcare providers with cost effective enterprise grade solutions for training.

Use Cases

1. A skilled nursing facility needs a simulation setup for reskilling and upskilling.
2. Home care service providers need to recreate simulation scenario for effective communication during rehab.

Versatility

When paired with live streaming capabilities, SIMULATIONiQ™ One Room maximizes full-time trainers' reach by providing comprehensive instruction across multiple sites.

Use Cases

1. VA Hospitals regularly facing training staff shortages.
2. Training and induction of healthcare providers at scale.

Space Optimization

EMS's One Room empowers administrators to start simulation instructional incrementally and build dedicated setups for key disciplines when needed.

Use Cases

1. A hospital needs a small training setup for quickly onboarding pediatric and maternity nurses.
2. A multi-disciplinary teaching hospital's simulation center is struggling to meet the training demands of its various departments.
